

March HealthCare Development is pleased to announce its first spiritual and healing partnership with Cross Word Christian Church. This partnership is similar to our education, training, and research partnership with Riverside Community College Allied Health Program. We look forward to more announcements in each of these segments in the future.

Don Ecker
Managing Partner
March HealthCare Development

Pastor Lacy K. Sykes, Jr.
and Minister Karen J. Sykes

As a March HealthCare faith and wellness partner, we believe that true healing of the body can only happen when there is true healing of the spirit. Being part of the March HealthCare project will allow us to expand our vision to minister to the community in a unique place designed to attend to the body. We believe that real healing can only happen when the physical and the spiritual are given equal attention.

Lacy Sykes, Jr.
Chief Pastor
Cross Word Christian Church

Entirely new healthcare for the entire community.
