

**MYTH:** New health facilities will not stimulate economic growth.

**REALITY:** The March HealthCare project will bring over 23,000 jobs and nearly \$2.5 billion to the region. Moreno Valley will benefit from additional quality healthcare, creation of the well-paid jobs during construction and after in recruiting highly-skilled, health care providers to the region.

**Oscar Valdepena**  
*President/CEO*  
*Moreno Valley Chamber of Commerce*

**FUTURE:** Entirely new healthcare for the entire community.

**W**e are creating a state-of-the-art LifeCare campus that will bring healthcare, wellness, research, and education and training together under one roof.

Through partnerships with hospitals, ambulatory surgery centers, physician groups, education and research institutions, March Healthcare Development is bringing economic vitality to our community while improving lives.

The Campus will feature Centers of Excellence for the most pressing medical needs of our time, including cancer, heart disease, and stroke. This Medical Campus will provide care for all members of the community, through all stages of life, providing a total health care experience—from the mind/body connection through to skilled nursing facilities and hospice.
